Affiliation	1.Chair Professor, China Medical University at Taichung, Taiwan 2.Honorary Superintendent, China Medical University Hospital and International Service at Taichung, Taiwan.	
SNS ID (Optional)		
Curriculum Vitae		
In 1974 Prof. Hung-chi Chen was graduated from College of Medicine, National Taiwan Hospital. He has 605 peer-reviewed papers published on microsurgical reconstruction, 368 scientific presentations in the conferences, 38 book chapters, 7 books. The honors and awards in the recent years include: (1) 2019 Medal for Contribution to Medicine, (2) 2018 MOFA-Friend of Foreign Service Gold Medal (first place), (3) 2017 First International Medical Model Prize (Gold Medal), (4) 2017 The ROC Department of Foreign Affairs NGO Certificate of Merit, (5) 2016 Discovery Channel's Taiwan Revealed: Medical Elite interview and feature, (6) 2014 National Biotechnology and Medical Care Quality Award – Gold Medal, (7) 2012 Executive Yuan Award for Outstanding Science and Technology Contribution (8)2025 Noordhoff's lecture, (9)2026 Buncke lecture in ASRM. He has been invited as visiting professor and gave special lectures by 56 renowned medical centers in the world, including Harvard University, Kleinert and Kutz Institute, Mayo Clinic in US and Royal College of Medicine in UK, etc. He is also devoted to charity medicine for overseas patients of complex deformities from a variety of countries (such as Peru, India and Vietnam, Burma). He also contributed to the education of reconstructive microsurgery by training more than 200 international fellows from 26 countries in the world. He trains the international fellows not only the basic skill and knowledge, but also the strategy to avoid and treat microsurgical complications. Until now he still accepts the consultation from previous fellows.
