Curriculum Vitae		
Yushi Suzuki, M.D., Ph.D., is a Project Assistant Professor in the Department of Plastic and Reconstructive Surgery at Keio University School of Medicine, Tokyo, Japan. He received his M.D. from Keio University School of Medicine in 2014 and his Ph.D. in Medicine in 2021. He is a board-certified plastic surgeon specializing in reconstructive microsurgery, lymphatic surgery, and lymphedema treatment. His research focuses on advanced lymphatic imaging, particularly photoacoustic imaging, and innovative techniques for lymphaticovenular anastomosis. Dr. Suzuki has authored numerous peer-reviewed publications and book chapters and has received multiple academic awards, including the Microsurgery Face-off First Prize at the World Society for Reconstructive Microsurgery Congress. In 2025, he was selected for the Japanese Society for Reconstructive Microsurgery Traveling Fellowship to visit leading microsurgical centers in Europe.
