Curriculum Vitae		
Dr. Akitatsu Hayashi is Program Director of Lymphedema Center, Kameda General Hospital, Japan. He specializes in reconstructive microsurgery & surgical treatment for lymphedema. He is well-known as a pioneer in imaging for supermicrosurgery and effective and efficient LVA/LVB. He has published over 90 peer-reviewed publications, delivered 85 invited lectures in 17 countries, including WSRM & ASRM, been invited to operate 33 times in 11 countries, mentored 96 international visitors and been appointed visiting professor in 16 facilities in the world. Notably, he organized the first Imaging for Reconstructive Microsurgery Meeting, which has now become part of the WSRM & ASRM programming. Kameda Lymphedema Center which is directed under him has been the first asian designated Surgical Centers of Excellence by LE&RN(USA) from 2020. In recognition of his past achievements in the field of microsurgical reconstructive surgery, he has been selected as a Godina Fellow for the 2026 ASRM.
