Curriculum Vitae		
Chi-Hoon Oh, MD, PhD, is a Clinical Assistant Professor in the Department of Orthopedic Surgery at Korea University Medicine Ansan Hospital, South Korea. He received his undergraduate education in Chemistry at KAIST and earned his MD and PhD degrees from CHA University. After completing his orthopedic surgery residency at CHA Bundang Medical Center and military service as an army doctor, he pursued fellowship training in orthopedic and hand surgery at CHA Bundang Medical Center and Korea University Medicine Ansan Hospital. His clinical and research interests focus on hand and wrist surgery, upper-extremity trauma, fracture fixation, wrist arthroscopy, microsurgery, and peripheral nerve surgery. He has published extensively on distal radius fractures, wrist arthroscopy, triangular fibrocartilage complex injuries, scaphoid fractures, metacarpal fractures, hand tumors, and musculoskeletal epidemiology. He is an active member of several professional societies, including the Korean Orthopaedic Association, Korean Society for Surgery of the Hand, Korean Society for Microsurgery, and Korean Society for Surgery of the Peripheral Nerve.
