### Curriculum Vitae

Dr. Sang Hyun Lee is a Professor in the Department of Orthopedic Surgery at Busan National University Hospital, South Korea, specializing in hand surgery and severe extremity trauma. He earned his medical, master's, and doctoral degrees from Busan National University, and is a board-certified orthopedic surgery specialist with subspecialty training in hand surgery and trauma surgery. He completed a clinical fellowship at the Upper Extremity Center, Massachusetts General Hospital, Harvard University, and further training at the Microsurgery and Reconstruction Center, University of Tokyo, and the Kleinert Institute Hand Center. He served as President of the Korean Society for Peripheral Nerve Surgery (2023) and sits on the boards of the Korean Journal of Hand Surgery, the Korean Society for Microvascular Surgery, the Korean Society of Fracture, and the Korean Trauma Society. He is an international member of ASSH and FESSH.
