Curriculum Vitae		
Prof. Soo Min Cha is Professor of Orthopedic Surgery at Chungnam National University Hospital, Korea, specializing in hand and upper-extremity surgery, peripheral nerve surgery, trauma, and reconstructive microsurgery. He completed a clinical fellowship and Master of Medical Science in Reconstructive Microsurgery at Chang Gung University, Taiwan (2021–2022). He was an ASSH Traveling Fellow in the United States (2024), a JSSH Traveling Fellow in Japan (2026), and a TOTA Traveling Fellow in Taiwan (2026). His principal research interests include supercharged end-to-side anterior interosseous nerve transfer for severe ulnar neuropathy, wrist and elbow reconstruction, and upper-extremity trauma. He has authored more than 95 peer-reviewed publications and contributed chapters to the Korean Orthopaedic Association Textbook of Orthopaedics, including Compartment Syndrome and Amputation of the Hand.
