Title (i.e. Pf. Dr. etc)	Dr.	
Name (First name_Last name)	Tinggang_Chua	
Degree (i.e. MD, Msc, PhD)	MD	
Country	CHINA	
Affiliation	Jiangsu Province Hospital of Chinese medicine	
SNS ID (Optional)		
Curriculum Vitae		
Chu Tinggang, Male, MD, born in Nanjing, Jiangsu Province, PRC. An old microsurgical dog. My clinical interests include reconstruction of complex wounds, chronic wounds and oncological wounds. I have successfully performed replantation for 11.5 cases of total scalp avulsion injury, and possess unique experience in microsurgical replantation of total scalp avulsion. I have an in-depth understanding of the free SCIP flap, especially in applying multi-lobed SCIP flaps of various configurations for wound reconstruction. Furthermore, I have profound insights into the haemodynamics of free flaps and the haemodynamic principles underlying free flap reconstruction for chronic wounds, particularly regarding recipient-site venous hypertension. I am skilled at using distal AV shunting to resolve venous crisis. I have published numerous articles in domestic and international journals: 2 in Plastic and Reconstructive Surgery and 3 in Journal of Plastic, Reconstructive & Aesthetic Surgery, including a July 2024 cover article.
